

## **Programs and Collaborations**

### **BECAUSE YOU ARE UNIQUE**

"Because You are Unique" is our way of presenting to you our Student Mobility Programmes that we believe you will enjoy and remember for your many years to come.

We will go out of our way to understand you, learn about who you really are and cater to you as an individual and as well as our learned guest. For each and every one of you, we tailor our courses to your interest but each carries with it our Malaysian learning values.

Every one has been designed to suit your own individual personality and requirements. Each programme has transferable course credits, valuable learning outcomes and full academic rigour but set in your own personalized adventure of Asian living - in exotic cultures and unspoilt nature treasures.

It will be your learning experience like no other. Memorable and yet unique. Go to:

### **TEACH FOR MALAYSIA**

Source: <http://www.teachformalaysia.org/>

We need our brightest minds to solve our biggest challenge.

If you consider yourself to be a leader in your generation, with the power to inspire and lead change in the lives of others, you may be who we're looking for.

The Teach For Malaysia Fellowship is a highly selective, challenging and rewarding two-year leadership development programme focused on addressing education inequity in Malaysia through the efforts of outstanding youth leaders.

We invite applications from exceptional Malaysian students in their final year of study and young professionals who want to pioneer this exciting mission and begin their career driving real impact and long-term change. You will teach in high-need schools in Malaysia to significantly transform the academic achievement, aspirations and outcomes of these students. You will receive intensive training and support, taking on huge responsibility and grow through a steep learning curve. You will develop tremendously through amazing personal and professional development opportunities.

Best of all, you will directly impact the lives of children in high-need communities and understand what it takes to solve education inequity in the long-term. After the two years, you become a Teach For Malaysia Ambassador and join an influential national and global alumni platform, becoming a leader in the private, social or public sector to expand education opportunity for all children in Malaysia and the world. Those who can, create history.
